

Another story sparkling with wit and humor from New York Times bestselling author Mercedes Lackey. Traditionally, marauding dragons are soothed only by a virgin sacrifice. And so practical-minded Princess Andromeda -- with the encouragement of her mother's court -- reluctantly volunteers to do her duty, asking only for a sword to defend herself. Well, her offer is accepted, but the weapon isn't forthcoming, and so Andromeda faces the dragon alone. Until a Champion arrives to save her -- sort of. Sir George doesn't quite defeat the dragon, but as Andromeda finishes rescuing herself she discovers that beneath the Good Knights' well-meaning though inexperienced heroics lies a further tale . . . Still, Andromeda can't leave her seacoast country in further jeopardy from the dragons' return, and so she and . . . er . . . George join to search for the dragon's lair. But even -- especially -- in the Five Hundred Kingdoms bucking with Tradition isn't easy. It takes the strongest of wills, more than a hint of stubbornness, quick thinking and a refusal to give up, no matter what happens along the way. Somehow, though, none of this was taught in princess school . . .
